

CARP Xtra-PREMIUM

EXTREME KNOT STRENGTH MONOFIL Bi-Color

300M-330Yds

BI-COLOR CAMOUFLAGE OLIVE GREEN – BLACK
EXTRA KNOT STRENGTH & ULTRA SOFT

HIGH ABRASION RESISTANCE
MEMORY FREE – LOW ELONGATION
TROUBLE FREE LINE TWISTING

PARALLEL WINDING SPIRES JOINTIVES PW-S®

PW-S PARALLEL WINDING

DESIGNED FOR CARP - PIKE - BLACK BASS

Haute Résistance aux Nœuds & à l'Abrasion

Ultra Souple & Super Glisse grâce au procédé **Multi-Coating MC²**. Finition Super Lisse & Soyeux.

La technologie numérique de bobinage orienté à **Spires Jointives PW-S®** supprime les problèmes de **Vrillage & Torsion** du fil et réduit également la tension de bobinage. Au déroulage, **le fil reste droit**.

Faible Elasticité / Double Couleur Vert – Noir

Sans Mémoire / Tension Contrôlée & Régulée **NSCTsystem®**

Thanks to its advanced technology, this line combines both Advantages to have **Extreme Knot Strength** and **High Abrasion Resistance** and **Ultra Softness**.

The **Multi-Coating** process **MC²** soften the line and gets it very smooth and his advanced copolymer formula add toughness and abrasion resistance.

Trouble Free Casting & Twisting due to Digital Precision Winding Process **PW-S®** allow easy and accurate casting. When using, the **line keeps straight without any twisting or torsion**.

No Stretch & Controlled Tension **NSCTsystem®**

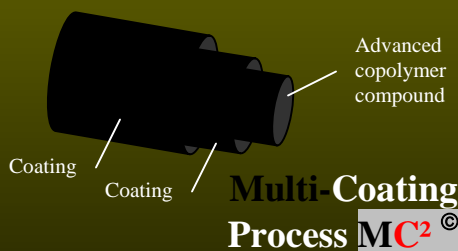

EXTREME KNOT STRENGTH MONOFIL Bi-Color
